

Pipe clips

WHS-CL-T60

WHS-CL-T40

Overview

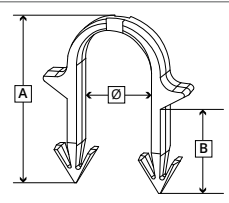

The Warmup clips are intended to be used with our Warmup Clypso System. The choice of pipe clip to install the Clypso system depends on the thickness of insulation beneath the pipe you plan to install. Generally, the WHS-CL-T60 clip is used, but if the insulation is thinner than 40mm, the WHS-CL-T40 should be used instead.

The clips secure the pipework in place before pouring the screed layer. The clips are constructed from polypropylene, making them highly durable and resistant to bending or breaking. They are also designed to fit into standard tacker guns.

Technical specifications

Product code	WHS-CL-T60	WHS-CL-T40
Pack		300 clips
Application; Max. OD Ø		20mm
Material	Polypropylene	
Colour	Black	

Dimensions

Warmup clips					
Code	Composition	A (mm)	B (mm)	Max. Ø (mm)	
WHS-CL-T40	Polypropylene clips	40	20	20	
WHS-CL-T60		57	37	20
